\$175,000 Extension Job At Arena Begins April 1

Air Show Is Planned For 1950

Preliminary Effort For This Summer May Be Staged

Edmonton will stage Canada's greatest airshow in 1950 if present plans of the Edmonton Exhibition Association and Edmonton Chamber of Commerce are successfully concluded.

Representatives of both organizations will join forces in exploring the possibilities of staging the show.

Personnel of the exhibition association's committee is R. V. Price, president of the association; James Paul, managing director and W. H. J. Macdonald, vice-president.

The Chamber of Commerce committee is headed by Francis Winkler, president, and C. D. Jackson, vice-president. It is composed of a cross-section of representative city organizations.

Chamber of Commerce is prepared to underwrite the initial expenditures for the first airshow. The exhibition association will be responsible for the remainder of the cost.

At the same time, Bevins orally protested against Hungary's "extremely discourteous" reply to the first British note.

MINDSZENTY TRIAL AGAIN PROTESTED

LONDON, Feb. 10.—(BUP)—Foreign Secretary Ernest Bevin today sent Hungary a second note in connection with the trial of Joseph Cardinal Mindszenty.

He personally handed the note to Hungarian Minister János Eötvös at the foreign office.

At the same time, Bevins orally protested against Hungary's "extremely discourteous" reply to the first British note.

46,175 ALTA. FARMERS PAID INCOME TAX

OTTAWA, Feb. 10.—(CP)—At least 29,253 farmers filed income tax returns for 1947, reported the Minister of Finance, James D. Macpherson.

He said there may have been more but that was the number who used the special T1 form for farmers. This is the breakdown by province:

Prince Edward Island 5,397, New Brunswick 5,371, New Housewife 3,187, Quebec 9,902, Ontario 42,001, Manitoba 25,786, Saskatchewan 54,929, Alberta 46,715, British Columbia 10,083.

Rescue Try Next Monday

More medical supplies for the Eskimos will be shipped to the village at Creswell Bay on Somerset Island, 300 miles northwest of Cambridge Bay, were due there today.

A third plane from the RCAF station at Edmonton reached the village at Creswell Bay today.

The plane, a C-47, was loaded with medical supplies and was to be used to bring the Eskimos to the village.

Oil Well Is Certain At Schoepf

Upholds Promise Of Indications At Higher Levels

Second wildcat oilwell discovery in the Edmonton area in two days has been reported.

The new well, Imperial Schoepf No. 8, is located south of Spruce Grove, which made a successful test today.

The well, which is 100 feet deep, was drilled by the Imperial Oil Company.

Project Contract Let to City Firm

Alterations to provide 1,272 additional seats in the Edmonton Arena will be started by April 1, it was decided Wednesday by directors of the Edmonton Exhibition Association.

Contract for this project, long advocated by The Bulletin, was awarded to Christensen and MacDonald, Edmonton contractors, on a cost-plus basis. Estimated cost of the project is \$170,000.

The addition will bring the seating capacity of the arena to 6,662. Alterations call for the demolition of the present south wall, and its extension 53 feet further south.

Six staircases will be provided and additional exits will be placed at the southeast and southwest corners of the rink.

Powder and new rows will be built at these corners on all three levels of seating, and on the second floor a level mezzanine floor, with a 48x72 feet lounge room with concession booth, will be featured.

Rest rooms will be provided on each side of the lounge.

On the top floor level a lounge room 28x52 feet will be provided.

Mercury in Edmonton rose slightly Wednesday and low temperature during the night last night was only six below.

Meanwhile temperatures varied considerably in other parts of the province and in the northland, in the southern part of the province temperatures as high as 25 above were reported this morning but in the north conditions were different.

At Grande Prairie the mercury rose to 18 above during the night, at May in the Yukon, even night low was 55 below.

City Will Develop Despite Itself

Alberta Minister Says Edmonton Will Prosper When Recession Hits

By Lloyd Jenkins

"Edmonton will be prosperous even in spite of Edmonton," Hon. N. E. Tanner, minister of lands and mines, told me. "When other cities go into recession, Edmonton will still be prospering."

Evidence of the correctness of this view is already being indicated. Figures show growth of 1948 over 1947 in nearly every direction. Some highlights follow:

1947	1948
Population	215,451
Building Licenses	2,805
Home Sales	4,708
Industrial Production	1,000
Investment	1,000
Net Income	1,000
Net Assets	1,000
Net Liabilities	1,000
Net Worth	1,000

As for 1949, signs are an acceleration of the pace of progress.

STAFF SURVEY
The newly-formed Oil Bureau of the Chamber of Commerce will commence an immediate survey to determine the exact needs of oil and subsidiary industries. The 40 or so oil men who comprise membership are charged with taking every action necessary to meet these needs. President L. Burrows of the Chamber of Commerce said that Edmonton business men were mobilized to overcome the accommodation problem.

For example, construction of \$150,000 worth of new homes will be built, costing \$750,000 is now being planned, while 300 extra rooms will be added to the Macdonald hotel.

LIQUOR POSSIBLE
Several other smaller, but first class, hotels are also a possibility.

Learned that several interesting parties are being organized contingent upon getting a liquor license.

The city will be materially increasing its provision of utilities, sewer and water supply. Investments will be increased by at least one-third over 1948.

"Petroleum" building, with office space for oil companies and suppliers may be erected. At least one private interest has approached the city for a building site.

"I told a man who proposed a building for office space that if he increased his plans tenfold, and called it a 'petroleum' building he would find it immediately constructed."

Hon. N. E. Tanner. "He didn't believe me but I know it is the truth. Edmonton and oil are synonymous in the minds of people thousands of miles away."

DOUBLE CAPACITY
Imperial Oil will more than double the capacity of its refinery, from 6,000 to 12,000 barrels per day.

McCall-Frontenac is building a refinery. At least one other is expected to be located here.

Four major oil companies are already looking for space to locate Canadian headquarters here. Others undoubtedly would come if space were available.

The provincial industrial director and city commissioner, however, did not know of a single instance where lack of space persuaded an industry to go elsewhere.

Both the province and the city are making strenuous efforts to attract industrialization on the basis of oil and natural gas advantages.

Both W. H. Thomson, director of industrial development, and Graham Curtis, industrial commissioner for Edmonton, are enthusiastic about prospects for the coming year.

Interest of province and city diverge, however, at the point where the province believes that industrialization should be scattered through the province and not concentrated almost entirely in Edmonton and Calgary.

POSSIBLE INDUSTRIES
Industries expected to locate in the province in the coming year, with Edmonton the most probable site, are: Pulp and paper, tanning, chemical, iron ore refining, steel works. While some of these may not appear to be related to oil, all have been advanced by Alberta's oil and natural gas.

Although snags developed over the pulp and paper proposal, the financier has kept the province fully informed of developments, and it is still definitely on the agenda.

At the request of the Alberta government, the Dominion is bringing to Canada two Czechoslovakian experts on tanning. They are already en route to this country. Improper methods of branding and tanning of the valuable fur are two problems which must be overcome before Alberta makes real progress in the hide and tanning industries.

OIL PROSPECT
For three years, Canadian Industries Limited has been making surveys and enquiries in Alberta. Certain quarters here believe the company is now prepared to locate in Edmonton.

A number of other chemical firms have made inquiries, including Dow Chemicals, one of the largest firms of its kind in the world.

Proposals have been made, in view of cheapness of gas separation, that iron ore from eastern Canada should be sent here for refining in grain cars which otherwise would be back empty.

While the provincial government has been exploring possibilities, negotiations are still in the tentative stage.

Alberta has some iron deposits. The Burnaby beds near Crow's Nest Pass, have been traced over eight miles, and have been known for many years. These beds have several others, have not been exploited because it was not profitable under previous separation methods.

Gas separation, however, has led to the potential of making development of Alberta iron ore feasible. This brings within the realm of possibility the establishment of steel industry in the province.

EDMONTON BULLETIN, Thursday, Feb. 10, 1949

Seven Judicial Posts Filled

OTTAWA, Feb. 10. — (CP) — Seven judicial appointments—five of them in Saskatchewan—were announced yesterday by the Minister of Justice.

Judge John Martin Hurdle of the Humboldt, Sask., district court, has been transferred to the Prince Rupert district, succeeding Judge R. E. Daak, retired.

Michael Storchin, K.C., Yorkton, Sask., was appointed judge of the judicial district of Wynyard, Sask.

Judge Robert Eric Jay of Kerrobert, Sask., was transferred to the Battleford district, taking the place of the late Judge A. E. Bence. Hector Mackay, K.C., Melville, Sask., will succeed Judge Jay.

W. L. Clark, K.C., Battleford, Sask., will replace Judge E. Wylie, who has retired from the Estevan judicial district bench.

Robert Zernich, K.C., will become York county court judge in Onario, taking the place of the late Judge J. Darby of Welland, Ont., who has retired from the Lincoln county court bench.

Geiger Counters Mass Produced
TORONTO, Feb. 10. — (CP) — Electrical engineer C. A. Scott of Toronto said yesterday Geiger counters, for use in radiation detectors, for mass production now are being developed.

He told the Electric Club of Toronto that the Geiger counter, a radiation detector may be standard equipment in civilian defense crews of the future.

50,000th DP Coming
COXHAVEN, Germany, Feb. 10. — (Reuters) — Fifty thousand displaced persons will have left Germany for Canada by today under the Canadian settlement scheme. A party including the 50,000th emigrant will sail from here on the liner Samaria.

TINIEST TWINS ever to fly the Atlantic, Michele and Madeleine Tarfa register only slight indifference as they land at LaGuardia Field, New York. Their mother is taking them to Hollywood for their first meeting with papa, Rushdy Tarfa, who left London just before they were born seven weeks ago.

355 West Oil Wells Completed Last Year

CALGARY, Feb. 10. — (CP) — A total of 355 oil wells were completed in western Canada in 1948, Fred M. Graham, president of the Western Canada Petroleum Association, said yesterday in his report to annual meeting of the organization.

More than 100 Alberta oil men attended the one-day meeting. In his report, Mr. Graham estimated that 455 wells will be drilled in the west this year. He said 45 active drilling rigs are in operation in western Canada and another eight rigs are expected from the United States.

The directors reported that 79 percent oil companies are members of the association together with 19 percent of their subsidiaries. In addition, there are more than 100 associate members, making a total representation of 253. All American companies who have come to western Canada have taken out membership in the association.

A manual of regulations governing seismic operations is being drawn up. Saskatchewan and British Columbia have asked for it as well as Alberta.

Special attention is being given to the problems of Lloydminster operators.

Dealing with the 1948 casing problem, which could restrict both exploratory and developmental drilling, Mr. Graham reported: "We submitted a brief to the Hon. C. D. Howe, appealing for the assistance of his department to bring our case to the attention of the authorities at Washington in the hope that the latter's quota would be increased. This was dealt with by the steel controller. We were assured that our problem would at all times be given every consideration."

Fishpacker Sinks
EGG ISLAND, B.C., Feb. 10. — (CP) — One man is presumed dead with three others rescued following the sinking of the fishpacker "Peking Cloud" yesterday near this island in Queen Charlotte Sound.

5 Largest Petition Asks Rights Bill

OTTAWA, Feb. 10. — (CP) — The biggest petition in Canadian history, containing more than 625,000 signatures and calling for a Canadian Bill of Rights, was tabled in the Commons today by Althair Stewart (C.P., Winnipeg North).

The petition, circulated by workers of Jehovah's Witnesses last fall, urged an amendment to the British North America Act to guarantee freedom of speech, press, worship and due process of law, and to make these rights enforceable by the courts.

Mr. Stewart commented that although he was tabling the document he didn't agree with the religious views of the Witnesses.

'TOOTHPICK CHARLIE' SLIPPING

Crook Says 'Humiliated,' Nabbed by Policewoman

LOS ANGELES, Feb. 10. — (AP) — "Toothpick Charlie" once one of the best "second-storey" men in the United States, is in crook's purgatory today.

For the first time in his 30 years of bustling with the law, he was plucked by a policewoman and for stealing nickels.

Charlie, whose picture once was a permanent exhibit in the country's post office, was quite bashful about posing for news photographers with Policewoman Edna Agosta.

"The humility of it all" he mused. Legally known as James J. Fitzpatrick, Charlie now is 33.

He once was the envy of the underworld for his slick second-storey work, but the years have altered him. Lately, police say, he has switched to emptying telephone coin boxes.

His nickname comes from the toothpick always in his mouth, except when he places it in the coin box mechanism.

Wainwright Club Stages Ice Show

WAINWRIGHT, Feb. 10.—"Ice Follies," the first show of its kind in the new arena was presented under the sponsorship of New Canadian Club here Friday and Saturday. Capacity crowds were on hand each evening despite the cold weather.

The program commenced with a parade of the fairies and elves, all of whom had been candidates for the honor of "Fair King" and "Fair Queen" of the carnival. The fairies in sparkling white and silver and elves in various colors, made a very pretty picture as they skated slowly around.

Mayor Robinson then placed glittering crowns on the heads of Denise McCaffrey and D. in Carl, who had obtained majority votes in the contest. They had been representatives of Canadian Legion and Auxiliary.

The Fairy King and Queen, representative in their royal robes, were led to the "throne" box escorted by Sgt. Cadet Donald MacGregor and Rodney Carter.

24 Rinks Enter Ladies' Bonspiel At Vegreville

VEGREVILLE, Feb. 10.—Twenty-four rinks curling in the Vegreville ladies' bonspiel got away to a good start on Tuesday afternoon with ideal weather prevailing. The following rinks in addition to the 12 Vegreville rinks are playing: Whyt, Colburne, Stewart, Ewing, and Townsley, all of Edmonton; Cunningham of Two Hills; Williams of Manville; McIntyre of Viking; Swickland of Mundare; Savage of Vegreville; Coats of Tofield; and Cross of Vegreville.

The following are the four main events: Grand Challenge, Professionals, Merchants and Citizens. In the first draw in the Merchants, Korda of Vegreville won out over Whyt of Edmonton, and Ewing of Edmonton won over Cross of Vegreville. In the Grand Challenge, Colburne of Edmonton edged out Pridemore of Vegreville as an extra end. Stewart of Edmonton took the game from Townsley.

On the ice in the second draw in the Grand Challenge Korda won out over McIntyre. Savage won out over McIntyre, and Savage won out over McIntyre. In the Merchants, Jeffrey won out over Cunningham.

A banquet was served by the Ladies' Auxiliary of the United Church in the Legion Hall Tuesday night.

On the ice in the second draw in the Grand Challenge Korda won out over McIntyre. Savage won out over McIntyre, and Savage won out over McIntyre. In the Merchants, Jeffrey won out over Cunningham.

A banquet was served by the Ladies' Auxiliary of the United Church in the Legion Hall Tuesday night.

On the ice in the second draw in the Grand Challenge Korda won out over McIntyre. Savage won out over McIntyre, and Savage won out over McIntyre. In the Merchants, Jeffrey won out over Cunningham.

A banquet was served by the Ladies' Auxiliary of the United Church in the Legion Hall Tuesday night.

Esther UFA Holds Meeting

ESTHER, Feb. 10.—A meeting of the executive of the Esther UFA was held at the office of the Rev. H. Benson of Esther. In attendance were secretary-treasurer, Harold J. Pratt and Marshall Bingham. Financial matters and general business routine was dealt with, president H. Benson stated. H. M. Hall was also a visitor at UFA headquarters in Calgary this week.

Clive Dutton has arrived at New Brighton Station west of here and has taken over his duties as CNR operator. Mr. and Mrs. Dutton and their two children, arrived from Wexley in south-eastern Saskatchewan.

Not a single scrap of paper used in the manufacture of postage stamps is wasted; scraps are returned to the mills for re-rolling.

HOBEBMA HOSPITAL DESTROYED BY FIRE

WETASKIWIN, Feb. 10.—Fire on Sunday morning completely destroyed the new Indian hospital at Hobema. Nothing remains but the basement walls and a few charred timbers.

The 14-bed hospital was under construction and had been roofed. Construction work was still continuing in the interior and in a few months it would have been ready for occupation.

There is no fire fighting equipment at Hobema and the Wetaskiwin fire department sent a truck to see if they could render assistance. Though the truck left within a few minutes of being notified and made fast time, the whole place was then a raging mass of flames and just after arrival of the Wetaskiwin fire-fighters, headed by Chief Dave Baker, the entire roof fell in.

Pioneer at 86 Is Still Active

VERMILION, Feb. 10.—James Barry celebrated his 86th birthday on Monday. He settled two miles south-west of Vermilion in the beginning of the century and still resides on the old homestead.

He held open house during the afternoon and many friends from both town and country called to express their regards and to leave tokens of friendship.

Mr. Barry was president of the Vermilion Agricultural Society for a number of years and is now honorary president.

He is still active in all matters of social interest and still is keenly interested in current events.

The Indian government plans to build 1,000 miles of new macadamized roads, 3,000 miles of concrete trackways and improvement on 20,000 miles of existing roads.

Board of Trade Work Is Subject of Address

WETASKIWIN, Feb. 10.—Wetaskiwin Board of Trade heard, at their regular meeting on Monday evening, how boards of trade may function to bridge the gap which sometimes appears to exist between urban dwellers and their rural neighbors. The special speaker was N. C. Wallace, chairman of the agricultural bureau of the Calgary Board of Trade.

Indicating what had been accomplished in his home city Mr. Wallace gave a resume of the seed fair and short course as at present held annually in Calgary. It was an affair that was growing bigger year by year. Its value might even be in the steady improvement of the exhibits. From his own experience he pointed to the start of a calf club ten years ago when there was little interest taken in that sort of thing. Now, he said, that calf club raised animals that were on a par with anything shown at the big stock fairs or even the Royal Fair at Toronto.

Boards of Trade, he suggested, could be of inestimable value in devoting time and effort to the fostering of these clubs and results would amply repay them.

Two few people, Mr. Wallace said, realized the great contribution made by the farming population of Canada to its general economy. Yet in 1941, farmers who make up 30 per cent of the total population only received 11 per cent of the national income and in the 30's it had been only four per cent.

This was a truly unfair distribution of the national income. Further in times of economic depression it was always the farmer who felt it most. His prices received fell more rapidly than his costs. Boards of Trade, by their combined weight of opinion, he felt, could do much towards bringing this to government attention and in leading the way in a more balanced economy.

Legion Chooses New Officers

HINES CREEK, Feb. 10.—Election of officers took place at the recent annual meeting of Hines Creek Legion, No. 574. G. W. Hodson is the new president, replacing Arnold H. French, who was named past president. George Olafstad was elected vice-president.

P. D. Fridel was chosen secretary-treasurer. Carl Carigan had received from "—" position.

Legion plans to encourage local sports activities and announced with a donation of \$200 to the Huskies junior hockey team and \$100 to the seniors.

Loss is \$5,000 In Rocky Fire
ROCKY MOUNTAIN HOUSE, Feb. 10.—Fire completely destroyed the kitchen in the Modern Cafe on Main street early Sunday morning.

Firemen working in the 15 below-zero weather, managed to hold the fire in the kitchen, which was completely destroyed except for the outside walls. Little of the contents were saved, as the flames were too dense to allow fighters to enter. The loss is about \$5,000, which was covered by insurance.

Veteran Seniors Lose at Alliance
VESTERDALE, Feb. 10.—Veteran senior hockey team participated in the Alliance hockey tournament last Wednesday, Feb. 2, but lost their first game by a score of 6-1.

On Sunday, the Commodore team played the local boys but the result being a 5-3 tie.

FOR FASTER RELIEF NEVER Wait Till a Cold Gets Worse!

Quick! Use These Special Double-Duty Nose Drops

A little Vicks Vapo-rinol in each nostril relieves head colds in 10 to 15 minutes. Use as first warning signal or severe. Vapo-rinol actually liquefies and breaks down the cold germs. It prevents mucus from developing. It is sold by all drug stores.

VICKS VAPORINOL

This Week's Tawasi Mail

This big grin comes from a very busy boy—Eddie Sweeney, 12 years old and in grade 7 at Sacred Heart.

First of all Eddie wants to say hello to the kids in the Tawasi Mail.

Wainwright. He used to live there and was a Bull-It carrier with an Ace Junior Salesman certificate.

Eddie Sweeney again here in Edmonton. Eddie does the dishes every morning, plays hockey and collects match folders.

Janice Mumford, of the sweet smile and gingham blouse, is just going on four. She doesn't go to school, of course, but listens to the radio.

Other times she plays with her cousins and pretends to be a doctor. Janice has a dog, "Bully," who plays in the snow.

Janice Mumford with her. In the house also helps her mother by drying the dishes.

Cost Of Index Up
OTTAWA, Feb. 10.—(CP)—The Royal Commission, established last September to investigate reasons for the high cost of living, cost Canadian taxpayers \$88,226 up to Jan. 31. It was disclosed in a return tabled for House Thursday (C.F.T. House Jan. 31).

Tawasi Friend Helps Others

An eager friend and helper is Terry Zee, who donated \$1 of his savings towards helping the Koziska.

Terry was very worried at the plight of the family who lost their three-year-old boy, Michael Koziska, and their home in the fire last Thursday.

On his way downtown to deposit his savings in the bank, Terry hit on the idea and brought the money to the office to be sent from a Tawasi Friend.

The Bulletin is not collecting for the Koziskas, but we are very happy to send the donation on to Mrs. Julia Koziska, 9669 90A street, past president of Cloverdale Community League, who is taking donations.

ON THE TWINS

By J. D.

The other day Labor Leader Carl Berg expressed uneasiness over seasonal unemployment in Edmonton. He estimated there are about 5,000 unemployed here at the present time.

Then there was a brief item in Wednesday's paper under the heading: "Vancouver jobs reach 25,000."

Now there's probably no real cause for alarm. This is always a bad time of year for certain kinds of employment, the building construction industry in particular.

Just the same, stories about unemployment and statistics on the numbers of jobs, always scare the daylight out of me. I think that because I lived through that decade of despair commonly referred to as the Great Depression.

Every time I read or hear about unemployment I think of relief and the very thought of relief still sends cold shivers chasing up and down my spine.

Were you ever on relief? If you were you'll never forget how it was. I've forgotten most of my experiences in the war but I never forget the depression.

From the standpoint of physical well-being, relief in Edmonton probably wasn't too awful. And while a relief recipient's meals weren't dinner at the Waldorf, it was probably better than a salary basis than a meal served austerity-ridden Britons at the present time.

The worst thing about relief was the humiliation. A relief office in the hungry thirties was the bureau's dream of heaven. Getting on relief was the first great ordeal.

I know an Edmonton woman who was in bed suffering from a nervous breakdown for several weeks following her relief application interview.

Her's Gestapo probably picked up a few ideas from relief inspection system. You never could tell when an inspector would stop at a "break."

A well-to-do relative was generous enough to buy you a mangle radio after the tubes in your old one blew out. It was wise to have all the answers when the inspectors called. They'd want to know every last detail about such luxury accessories. I know of one home where relief inspectors checked over the children's toys and even threatened to cut the family off relief unless the "extra-

EDMONTON BULLETIN

EDMONTON, ALBERTA, THURSDAY, FEBRUARY 10, 1949

OL' MAN WINTER is fooled again as bright colors of June flowers break into brilliant display in February's chilly air. Mrs. A. S. Zukowski and Mrs. L. A. O'Ball, mother and daughter, lead battle against winter's gloom by creating lifelike displays of gay flowers in their workshop.

Imitation Flowers Bring Touch of Summer Here

By Muriel Sander

Frosty Saturdays bring bright imitations of spring and summer flowers to Edmonton's winter market.

And manufacture and sale of the pseudo blossom is a surprisingly lucrative hobby-profession, says Mrs. L. A. O'Ball, 10743 103 street.

It all began in the early 1930s when Mrs. A. S. Zukowski, Mrs. O'Ball's mother, began making and selling imitation flowers and crepe paper novelties as an offensive tactic against depression days.

ORIGINAL DESIGNS
After a lapse of some years during "better times," Mrs. Zukowski, with her daughter, began work again in earnest.

Starting with seed catalogue illustrations and nature's own handiwork, they began to work in completely original flower designs, skillfully and patiently cutting and shaping in silk, crepe paper or crepe-backed velvet.

Mrs. O'Ball won't explain "crepe-backed velvet" because it's a "trade secret." But results of this new medium in realism and beauty, justify her reticence.

Apple blossoms, roses, zinnias, lilacs, tiger lilies, tulips, in addition to scores of other types of flowers the two women create crepe and silk, memorialize, re-creating vivid cushions and exciting wall and curtain novelties.

LARGEST USERS
Largest demand for the products of their work comes from wedding, funeral, commercial decorations and house-down celebrations. But private and market orders are growing.

Mrs. O'Ball now has a complete work shop in the garage behind her home, where the bric-a-brac and tables are a bloom with the brightness and color of a manufactured summer.

Ald. Parsons Is Heckled
Verbal Battle Centre At Auditorium Meet

First steps towards formation of a citizens' committee to press for erection of a civic auditorium were taken at a meeting last night during which Ald. Sydney Parsons staged a protracted verbal battle with the meeting at large.

Six persons were appointed by 50 representatives of city groups who gathered in city council chambers to request all organizations of the city to be represented on a steering committee.

The steering committee will appoint sub-committees to obtain facts and generally promote the idea of a civic auditorium.

Those appointed were: Earl G. G. Galt, Mrs. E. Sterling Haynes, Mrs. J. A. Clarke, Mrs. Leroy Dodge, Stanley Ross and a person to be nominated by A. L. Burrows, president to represent the Chamber of Commerce.

Ald. Parsons did not finish his first speech when Chairman Clarence Richards requested him to give other speakers an opportunity to speak, following protests from the floor. While he was on his feet for the ninth time, the meeting summarily adjourned.

At one point, Ald. Parsons said if he did not know what he was talking about in connection with civic auditorium "facts" he would request the mayor to take him off the city council committee, only to be greeted with a chorus of: "Here, here."

Four of the members of the committee eventually appointed, Mr. Galt, Mrs. Haynes, Mrs. Clarke and Mr. Ross took issue with Ald. Parsons on one point or another, in all of whom—and several others—Ald. Parsons made reply.

APPEALS TO AUDIENCE
Seven times after making statements he appealed to the audience: "Is that not correct?" On the third occasion, Ald. Parsons was greeted by a chorus of "no."

The audience took particular exception to his contention that the auditorium would have to pay for all expenses of the tax rolls, which might be appearing.

It was then that Ald. Parsons offered to resign from the committee on the civic auditorium. In his "midnight" speech, Ald. Parsons said he was not in favor of putting either a sports arena nor all auditoriums on the tax rolls, though he wished to make clear he was not confusing the two, as each served a different function.

Persons advocating a civic auditorium should provide for the maintenance, though the city should supply land and free it from taxes.

Parity Dairy, Lethbridge, won second prize, while the Edmonton City Dairy took third spot.

Cloverdale Names Its Queen Today
Queen of the Cloverdale Community League winter carnival is to be selected today to preside at the carnival to be held in the community hall Friday, Feb. 11 at 7:30 p.m.

Competing for the honor of being queen are five district girls, Doreen Armstrong, Nora Grant, Violet Freeman, Irene Uvalud and Elmeria Nyblom.

Valentine Day Time For Festive Party

Teen-Agers Love 'Theme' Goodies
Served At Their Informal Parties

By Jane Scott

Valentine Day's the day of days for a teen-ager's party—a time for romance, rose-colored lights and young love. Make "Cupid's Bar" the focal point of the party.

Teen-ager's appetites are phenomenal, no matter how romantic the occasion. Provide plenty of food and an abundance of well-filled bottled carbonated beverages.

Each guest can be his own big tender, if you put out a number of bottle openers. Have a reserve of bottles in the refrigerator.

Menu: Assorted soft drinks, cupid's snack tray, Valentine and frosty-heart sandwiches, potato chips, pretzel sticks, ice cream with red candy hearts and pink sugar.

Cupid's Snack Tray: Cheese Hearts. Cut processed cheese in slices 1/4-inch thick, then cut the slices with a small, heart-shaped cutter.

Celery Arrangements: Bring small stalks of celery hearts, stuff a few leaves at the top. Sprinkle the stems with cream cheese mixed with enough mashed potatoes to make it pink, and seasoned with a little grated onion, salt and 1/2 of 2 teaspoons mayonnaise. To the tray add dried stuffed celery, heart-shaped ome or square-cake pan (8 x 8 x 2 inches) that has been greased on the bottom and lined with waxed paper.

Bake in a moderate oven (350 degrees F.) 40 to 45 minutes. Invert on cake rack until pink is cool. Remove from pan. Peel off paper from bottom of cake. Use pan to mold cranberry topping.

Topping: Dissolve gelatin according to directions on package—re-

gelatin, 1 was whole cranberry sauce.

Combine baking powder, salt and sifted flour and sift twice again. Beat egg whites until stiff. Gradually beat in half the sugar (about 2 tablespoons at a time).

Beat egg yolks until thick and lemon colored. Add remaining sugar and vanilla, continue beating until very thick. Slowly add water, stirring constantly. Fold in beaten egg whites. Sift about 1/4 cup dry ingredients at one time over surface, then fold into heart-shaped ome or square-cake pan (8 x 8 x 2 inches) that has been greased on the bottom and lined with waxed paper.

Bake in a moderate oven (350 degrees F.) 40 to 45 minutes. Invert on cake rack until pink is cool. Remove from pan. Peel off paper from bottom of cake. Use pan to mold cranberry topping.

Fun and Games For Teens' Special Party

Why not have a Valentine party in the form of an old-time box social? Invite all the girls to bring box lunch, the decoration of which should offer no problem with red ribbon, lace doilies, cut-out hearts, and a bit of imagination. And have all the guests dress in old-time clothes.

A costume party always has special zip. You can get books on how to do the dances at the turn of the century and there are lots of old-time records available. With most teen-agers the possession of record albums most of these could be borrowed with no cost.

FORFEIT HEARTS

Make small hearts and give each guest ten. Have them then make the room conversing with one another and every time the pronouns I or You are used by the speaker they must give up a heart to the other person.

At the end of ten minutes have them count their remaining hearts and the one with the most wins.

HEART SPOTS

Cut out large cardboard hearts and stick them to the dance floor with Scotch tape. Then have a spot dance and when the music stops the partners standing on a heart must leave the floor. It is nice to have small prizes for the winner.

SWEET HEARTS

(Ways to find your partner for game or for the evening.)

Make jig-saw half hearts, and if it is to be a big party use different colors so that the matching won't be too difficult. As each guest arrives have them draw a half-heart from a hat, and then when all the guests have arrived they must find the one with the matching half. That person will be their partner for the evening.

Cut out some small paper hearts and on each write the name of a hat. It is fun later in the evening to have the couple act a scene for which the couple is famous and have the others guess who they are.

Cut out more hearts and across each print famous initials as E. A. W.O.D., H.S.V.P., etc. Tear the hearts in half and let the guests match halves for partners.

VALENTINE WISH

As each guest arrives ask him or her to write on a 3 by 5 inch card the name of the one thing that they would like the most right at that moment.

The requests must be tangible things. Twice later in the evening pass the cards out one to a person and have them turn around and read the one to the person who wished it. It is sure that no one gets his own card.

And you can have the answer work in teams if you desire. This creates a good deal of fun and you can count on a weird assortment of things being sought out.

Pass out slips of paper and people among the guests and have them all sit apart around the room. Then ask them to write down as many of the nicknames and pet names of the other guests that they can recall. Pass the slips and let the next person and have them read them out. This is an excellent ice-breaker and causes a great deal of hilarity.

Little People Have Fun After School

An after-school party for your children on St. Valentine's Day is an extra-special treat which their Mom can swing with little effort. You can, if you serve simple refreshments in a festive party setting. Such a setting as the one pictured can be whipped up in a few minutes and is just enough to thrill young guests.

Color scheme is traditional Valentine red and white with heart-shaped placecards name-printed with white ink carrying out the holiday motif.

The doughnut tree makes an edible centerpiece and can be served as such with ice cream. It is made with bare-branched twigs set into a pinholder base placed in a row white bowl or flower pot.

The tree is dressed in with red, peachy, tree. Sugared doughnuts hang from the branches of the "tree." The pinholder is covered with white paper.

The tree is dressed in with a ring of red balloons.

Four little girls, dressed in white, joined together with red ribbons make the bright red plaid white tablecloth which, after the party, may be separated and put to use in the kitchen.

Indian Exiles

After being exiled from Mexico the Yaqui Indians took refuge in Arizona. They now stage their own Passion Play each Easter in their adobe villages of Yacata and Candelaria, Ariz.

EDMONTON BULLETIN, Thursday, Feb. 10, 1949 13

HEARTS AND NUMBERS

Deck your room out with hearts, large ones, small ones, broken ones, and have them hanging from streamers, pinned to the curtains and lamps, etc. As each guest arrives pin on his or her back a heart with a number on it.

At anytime during the evening ask the guests to count the hearts in the room and also the numbers on the backs of the guests.

About four minutes is a good time for this game, and even the best estimates will be far from the correct one.

Test Tank

The National Physical Laboratory at Teddington, England, has a tank 500 feet long and 30 feet wide, in which scale models of all the boats and ships of all sizes are tested for speed and seaworthiness.

Check . . . and double check

Ever get home from a shopping trip and wonder what you paid for one or more of your purchases? This should never happen when you shop at Safeway. We try to make sure you know exactly what you pay for every item.

We give you information about our prices in several ways. First, in our advertising; next, on the shelves; on cans and packages, where practical; then, by calling prices at the cash stand. Our checkers are instructed to call out the price on each item as it is rung up on the cash register. As a final check, the itemized cash register receipt is placed with your purchases to go home as a written record of what you paid.

Price information is always important. To you. To us. To everyone. Safeway service is planned to make sure you know each price and know that your purchases are accurately checked and totaled.

SAFEMAY MEATS are trimmed before weighing . . . so you save money. When comparing meat prices compare trim, too. For example, the next time you buy T-BONE STEAK ask the clerk how it is trimmed "waste free" before it is offered for sale.

Colored Margarine Hinted in Alberta

Ure Says Tint Should Be Different From Butter's

CALGARY, Feb. 10.—(CP)—A hint that the Alberta government may be considering legislation to enforce coloring of margarine was given last night at annual convention of the Alberta Dairywomen's Association.

In an address before more than 300 convention delegates, Alberta agriculture minister Ure said "I am of the opinion that margarine should not be the same color as butter."

Although the minister made no reference to possible government legislation, a number of dairy officials said they considered it "significant" that Mr. Ure did not qualify his statement by saying he was only speaking for himself and not the government.

Mr. Ure, however, warned dairymen they must be prepared to allow competition from margarine, sale of which would "likely have some effects on agriculture" they would not want. He said the dairy industry was one of the most important phases of agriculture.

Anything which tended to decrease the effort of the dairy industry would have an adverse effect on other branches of agriculture.

A number of resolutions dealing with margarine are scheduled to come before the final session of the three-day convention today. At least one resolution will be introduced which would require the government to appeal the decision of margarine's legality to the Privy Council. Another will ask delegates to voice an opinion on what color, if any, margarine should be given.

DEPLETES PUBLICITY

A. C. Anderson of Calgary wants delegates not to antagonize consumers over the margarine question. "The public is watching this question very carefully," he said. "If the government of the province is going to make a decision on the margarine question, it should be made in a way that will not antagonize the dairy industry."

Dr. F. W. Schofield of Guelph, Ont., addressed delegates earlier today on the control and eradication of bang's disease. He warned

15,400 Immigrants Coming From U.K.

MONTREAL, Feb. 10.—(CP)—C. C. Lockwood, president of Cunard-Donaldson, Ltd., announced yesterday that arrangements for the liner Aquitania to bring 15,400 British immigrants to Canada this year have been completed by the Dominion government and Cunard White Star line.

Body Discovered After 2 Months

TORONTO, Feb. 10.—(CP)—The body of Mrs. Lillian Arscott, believed dead for almost two months, was found by her son at her suburban North York home Tuesday night. Walter Arscott told police he had not heard from his mother for several weeks. He went to her small, unheated bungalow and through the window saw her body on a couch in the kitchen.

Manitoba Liquor Profits Set Record

WINNIPEG, Feb. 10.—(CP)—Net profits from liquor sales in the year ended March 31, 1948, amounted to \$6,989,096, greatest in Manitoba's history, the 20th annual report of the government liquor control commission said today.

A Message to

ALL M.L.A.'s

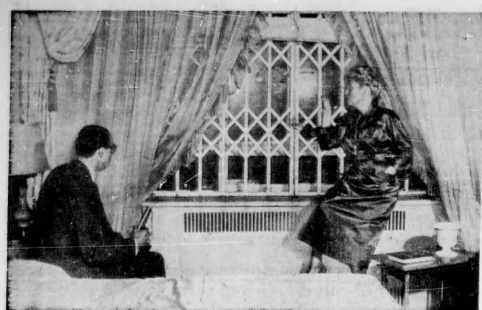

During the past few years, the money voted for the maintenance and construction of highways by the Provincial Government has been equal to, or slightly in excess of, the total revenue derived from motor vehicles.

THE RESULT: Improved highways, improved transportation, and economic, educational and social benefits to all.

Your constituents will support your support of a similar vote for 1949, to extend these benefits to many not already adequately served.

Good roads will mean progress for Alberta.

ALBERTA MOTOR Association

HUSBAND BARRED OUT, Mrs. Edith Maria Reuss Lord, who is reported suing for separation from millionaire attorney-manufacturer Robert P. Lord, sits in bedroom of her New York apartment with one of private detectives who man the barricades against her spouse.

RCAF Planes Establish Trans-Continental Marks

SUMMERSIDE, P.E.I., Feb. 10.—(CP)—Two sleek RCAF Lancaster bombers laden with navigation equipment of the future and specialist crews made aerial history yesterday in a 2,800-mile flight from Sacramento, Calif., to this air base.

It was the first trans-continental non-stop flight between the two points and it was the speediest service flight for the distance and general course.

UNDER 12 HOURS

The lead bomber Zenith made the flight in just under 12 hours and its companion Polar was three minutes behind.

Purpose of the flight was to give navigators using these long-range flying instruments an opportunity to study conditions and equipment over very long distances with a view to developing navigation which can pinpoint long-range targets and then find their way home.

Captain of Zenith was Pte. L. Bill Stevens, DFC, of Trenton, Ont., and Vancouver, while Polar's

Inside Hollywood

By Bob Thomas

HOLLYWOOD, Feb. 10.—(AP)—Burt Lancaster is angling a deal that may mean a lengthy connection with 20th-Fox.

The film tough guy has been talking with the studio about the lead in "12 O'Clock High," an air force picture, which, like "Command Decision" will be an air force picture.

He heard himself described as the "perfect example of how a Britisher should be dressed on all occasions."

SCENES AND SIGHTS

Betty Hutton says she's all set to do the part of Theda Bara for Columbia. It will be played strictly for laughs, along the lines of "Peculiar Pacific."

Photoplay's selections of the five most popular movie actresses give an interesting insight. They are: Ingrid Bergman, Jane Allyn, Rita Hayworth, Jennifer Jones and Esther Williams. Their average age is 28. That would seem to prove that the public wants its female favorites young.

CAPSULE REVIEW

"Heart to Heart" (MGM) shows the power of the screen as an information medium. Made by Herbert Morgan in co-operation with the Associated Press, this short film deals powerfully with the subject most important to your own health. Its main theme: heart disease. The No. 1 killer can be cured by better living. The film has been nominated for an Academy Award.

Berlin Toehold

OTTAWA, Feb. 10.—(CP)—The Canadian Red Cross is to maintain its tiny toehold in Berlin, a 10-man military mission headed by Maj.-Gen. Maurice Pope, the government reported Wednesday. A return issued for Ross Thatcher (CPC-Moose Jaw) said nine Canadians were repatriated by the mission during 1947. It is responsible to the Department of External Affairs.
